Combined Pitot - Static Tube

The combined Static-Pitot tube is designed to provide both dynamic and static pressure measurements in a single package. Pitot-Static tube is made of strong and light carbon fiber tubes and aircraft grade aluminum for maximum rigidity. System can be mounted and removed using two screws for simple UAV transportation.

Available in custom length to suit various UAV applications.

Specifications:

Parameter	Value
Weight	41 grams (for L=230 mm) / 1.45 oz (for L=9 inch)
Length L	Up to 600 mm / 23 inch
Mounting method	Two M5 screws / #10 UNF or UNC
Pressure connections	4 mm or 5/32 inch ID Tygon tubing
Operating temperature	-50°C to +85°C
